Monday through Friday,
7:30 am – 5:00 pm

How to Make an Appointment

Making an appointment at our medical imaging locations is easy. *To schedule an exam, please call **715-939-1594**.* For faster and more accurate service, please have the following information ready:

- Spooner Health must have a doctors order prior to scheduling the exam (except yearly screening mammograms).

How to Pick Up Your Images

Please contact us 24 hours in advance for your images to be ready for pick-up. We provide your images on a CD-ROM that you can take to your physician's office. To order your images for pick-up, please contact us at either of these departments: You must show a picture ID and sign release. If not able to pick up in person, send a note with the name and their relationship to you that will sign for your information.

- *Imaging:* **715-939-1594**
- *Health Information:* **715-939-1737**

How to Prepare for Your Procedure

- **Bring all your paperwork** - This includes your insurance card and a photo ID.
- **Bring all your images to date** - Our radiologist needs to see how this exam compares with your previous exams. This allows us to identify any subtle changes as well as eliminate the need for redundant or unnecessary exams. We can assist in getting your previous exams by signing a release of medical information too.
- **Follow your exam prep instructions carefully** - Some exams require you not eat or drink right before your procedure, whereas other exams require you to drink 32 oz. of water before your procedure. Be sure that you have a clear understanding of what is expected of you so you do not jeopardize your own results.
- **Arrive 15 minutes before your appointment time** - To ensure we can accommodate as many patients as possible, we ask that you arrive early so you have adequate time to complete your necessary paperwork and prepare for your exam.
